**NTU College of Engineering – Home to some of the World’s Most Influential Scientific Minds**

The Highly Cited Researchers is an annual report from Thomson Reuters that recognises leading researchers in their respective subject fields from around the world. The 2015 report gives recognition to a list of top researchers who have published the greatest number of papers officially designated by Essential Science Indicators as Highly Cited Papers during 2003 - 2013. Highly Cited Papers are defined as those that rank in the top 1% by citations for their subject field and publication year in the Web of Science.

This year, NTU College of Engineering is home to 6 of the world’s most influential scientific minds in various fields such as Chemistry, Computer Science, Engineering and Materials Science.
Our heartfelt congratulations to these faculty members for their remarkable achievements!
