

Congratulations to our newly elected IEEE fellows

Five faculty members from NTU College of Engineering are newly elected as IEEE fellows in 2017, the highest number ever achieved by the College.

The IEEE Fellowship, which is the highest grade of IEEE membership, is regarded by the international engineering community as a prestigious honour that recognises individuals with extraordinary record of accomplishments in any IEEE field of interest.

The five newly elected IEEE fellows are:

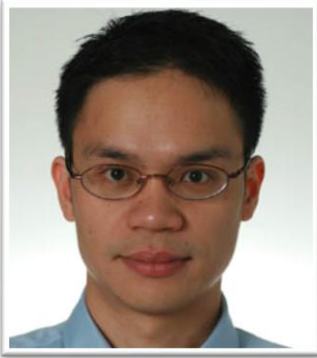

Prof. Su Guanling, President Emeritus, EEE

for his leadership in defense technology and management of educational institutions

Assoc. Prof. Chau Lap Pui, EEE

for his contributions to fast computation algorithms for visual signal processing

Assoc. Prof. Dusit Niyato, SCSE

for his contributions to resource allocation in cognitive radio and cellular wireless networks

Assoc. Prof. Josep Pou, EEE

for his contributions to multilevel converters and renewable energy conversion

Assoc. Prof. Shen Zhongxiang, EEE

for his contributions to 3D frequency selective structures and slot antennas

Our warmest congratulations to these faculty members for their remarkable achievements.
