Memorable Moments in NTU
Skills I have picked up in NTU

My Graduation Story
ISSUE 03 JULY
Memorable moments or experiences in NTU?

I find my time serving the Malay cultural society, Perbayu, to be one of the most memorable moments in NTU. I am very grateful to have the opportunity to make a positive impact on my community.

During my freshman year, I went on an overseas expedition to Padang, Indonesia where I was part of the team who helped a school to rebuild its bathrooms. I made very close friends through the expedition.

Other memorable moments in NTU would be the summer exchange in Hanyang University in South Korea and overseas exchange to the Czech Republic. Apart from the opportunity to experience studying and living in a foreign country, I also got the chance to travel and explore many different countries around the region!

If you were to create a slogan for your life, what would the slogan be?

Work hard now then can lepak later.

What are some of the skills that you have picked up during your time in NTU?

I picked up coding in C++ and python and utilised OpenCV for my FYP as well as for my personal projects.

NTU has given me the opportunity to brush up on my communication skills not only through the essential modules but also through networking events and activities during my 4 years.

Anyone you would like to thank?

Definitely my family and the close friends whom I could count on for anything.

The younger me, hanging out with my friends from Perbayu
