Overseas Exchange in Czech Republic

Exciting Hall Life in NTU

My Graduation Story

ISSUE 04
JULY
Memorable moments or experiences in NTU?

Hall life is definitely one of my most memorable experiences in NTU.

Aside from making friends with students from different disciplines, there were also many hall and sports activities that made my university life more vibrant and lively. My overseas exchange to the Czech Republic was a great experience as well. Apart from getting to experience studying and living in a foreign country, I also got the chance to travel and explore many different countries around the region!

What are some of the skills that you have picked up during your time in NTU?

I’ve developed better time management skills, learning to juggle studies, activities and time with friends and family.

I have also learnt to be proactive in learning and exploring things that I want to do, because time doesn’t wait for anyone!

Funniest/craziest thing that happened to you during your 4 years in NTU?

Winning a TV during NTU Fuse 2015’s lucky draw!
