Memorable Moments in NTU
What I will miss the most about NTU

Life is not about surviving the storm but learning to
Dance in the Rain

ISSUE 02 JULY
What will you miss the most in NTU?

**I’ll miss everything in NTU!**

The daily and weekly routines such as running the track, walking the Nanyang terrace slope to get to the hall, the fun moments of rushing for campus rider to get to class, having Ah Lian Bee Hoon for supper with my friends at Pioneer, the adrenaline rush before submitting an exam paper, attending CCA meetings and Saturday night dance practices. Those are the moments that I’ll always remember.

Memorable moments or experiences in NTU?

**I regard my final year project as a big milestone in my undergraduate programme.**

This project was a meaningful and special one to me on a very personal level. I would like to express my utmost gratitude to all individuals and professionals from the various departments who led me through this final year project amidst their busy schedules.

Anyone you would like to thank?

I would like to thank the professors from CEE for their unfailing support and encouragement over the course of past 4 years, as well as to my FYP mentors for their patient guidance and to my friends and family for their understanding and unconditional support throughout my undergraduate programme.

"Life isn’t about surviving the storm, it’s about learning to dance in the rain."

This quote has kept me going through the tough times during my learning journey in NTU. No matter how discouraging the circumstances were, it urged me to make the most out of it each time.
