

### **Congratulations to our newly elected IEEE fellows**

Six faculty members from NTU College of Engineering are newly elected as IEEE Fellows in 2018, bringing the total number of IEEE Fellows in the College to 23.

The IEEE Fellowship, which is the highest grade of IEEE membership, is regarded by the international engineering community as a prestigious honour that recognises individuals with extraordinary record of accomplishments in any IEEE field of interest.

The six newly elected IEEE fellows are:

**Professor Chang Chip Hong, EEE**

*for his contributions to hardware security*

**Professor Lu Yilong, EEE**

*for his contributions to array antenna techniques in radar systems*

**Professor Wang Peng, EEE**

*for his contributions to power system reliability and hybrid AC/DC micro-grids*

**Professor Avi Mendelson, EEE  
(Mediatek Visiting Professor)**

*for his contributions to power-aware architecture and value prediction for program execution*

**Professor Ong Yew Soon, SCSE**

*for his contributions to memetic computation and applications*

**Professor Guan Cuntai, SCSE**

*for his contributions to brain computer interfaces and applications*

Our warmest congratulations to these faculty members for their remarkable achievements.
